

Date: Saturday, February 27, 2016

Time: 9:00am—3:00pm

Cybersecurity and Cybersafety for Girls!

Cybersecurity and Cybersafety for Girls is an interactive learning and mentoring experience for girls who are interested in technology, computers, and cybersecurity! Undergraduate students will lead workshops in topics such as password protection, computer safety, encryption and internet privacy. This event will provide girls with the opportunity to learn everything they need to know to safely use the internet and technology with confidence!

For: 6th, 7th, & 8th grade females

Cost: \$30 (includes lunch and t-shirt)

Location: UMD College Park

Apply online at
